The American Cooking Stove in Court.

A T sn adjourned term of the Circuit Court of the United States, for the Northern District of New York, in the second circuit held at the City Hall, in the city of Albany, the 28th day of January, in the year of our Lord 1868.

PRESENT: The Hon. NATHAN K. HALL, Judge. JACOB H. SHEAR & JOSEPH PACKARD, In Equity GEO. B. BULL & JOHN M. ROCKWELL.

It is further ordered, adjudged and decreed,

It is further ordered, adjudged and decreed, that a perpetual injunction be issued in this suit against the defendants, restraing them from further infringements of said Patent, No. 51,496, Dated Dec. 5th, 1865, for improvements in cooking stoves, pursuant to and in accordance with the prayer of the Bill of Complaint.

Signed A. A. Boyce, Clerk.

The above was instituted for infringement of the Patent securing the manner of fitting the ash pan in the hearth of the American Cooking Stove, and for the combination of the bailed ash pan. We have repeatedly cautioned the public against selling or using stoves with these improvements not manufactured by us. All persons now selling or using stoves with these imsons now selling or using stoves with these improvements in violation of the above injunction, without license from us, will be fiale to fine and imprisonment. GREAT IMPROVEMENT IN DENTISTY.

The attention of the public is called to a great discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will In fact, overything kept in Furniture Ware Rooms will be found at our Store, which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hitherto used. I have secured Letters Patent for the United States, England and France.

The improvement is not in material, but in the construction, whichs ceures the atmospheric measure on the cutire plate.

The following is an extract from the Report of the Board of Education, for the year 1867, Mitchell's First Lessons, Primary, and Inter-mediato Geographics were adopted, for these reasons, in brief; the simplicity and clearness of the text, the gradual and constant advance-ment from the primary truths to the higher de-partments of geographical knowledge, the con-ciseness and completeness of the definitions, eiseness and completeness of the definitions, the elegance and accuracy of the maps, the attractiveness of the pictorial illustrations, and the uniform method of treating topics that are similar to each other. Since the adoption of these books, the publishers have taken measures to prepare a special edition of the Intermediate Geography for use in the schools of Vermont. This edition will contain a new quarto map of the State, engraved on copperplate; and four pages of letter press and questions, relating to the geography of Vermont to be prepared by Rev. Pliny H. White, It is believed that this feature, while it is not to increase the cost of the books, will materially increase its value and the interest with which it will be studied. McNally's Physical Geography, accompanied by Monteith's Lessons in Astronomy, was adopted, to be used in those departments of the study which are indicated by their titles.
